

## NSARC Field Day 2022

Field Day 2022 was very much like pre-pandemic field day, with popular faces attending and the President's Pizza on Friday evening. The number of participants seems to have decreased, but, on the bright side, there were a few new, young hams who were very interested and decided to join the club. NSARC's great FD site manager Adam, VA7KRZ and Heather VE7HEA volunteered to stay overnight as Night Guards.

North Shore Rescue's big Command Post was a big attraction to non-hams, invited quite a few non-hams to our FD station and we had a chance to introduce what Amateur Radio can do.
